

# Mentoring

## Reach your potential

The BCS Career Mentoring Network (CMN) is a robust development and empowerment tool enabling mentees to locate potential mentors and vice versa. It allows you to share knowledge, insights and experience by partnering with a mentee using a process driven and controlled entirely by you.

### Why should I become a mentor?

The experience and specialist competence you have built up over the course of your career to date can be hugely valuable to others. You may also find the role extremely rewarding, as you watch your mentee benefit from your mentorship and progress in their career.

### Why should I become a mentee?

Your mentor can help you identify some goals you may not have thought of, including those that will enable you to take steps towards your larger goal. Your mentor will have experience and will want to share that experience and their knowledge with you to take you to the next level.

It takes just a couple of minutes to create your account.
